Dave Berman is the #1 musician on the ReverbNation local and regional Folk charts!

★★★★★ 5-Star review rating on GigSalad.com

Recent Quotes

Wonderful performer, our residents really enjoyed. – Sr. Living Life Enrichment Coordinator

We requested a singing telegram for a retirement party. Dave composed a personalized song with funny details about our guest of honor, accentuated with retirement jokes throughout the song. Dave delivered a great performance. The guest of honor and audience enjoyed it very much. We appreciated that Dave could provide such a personalized performance on such short notice. – Singing Telegram Sender

Dave Berman's Bio

Dave Berman is a musician and singer/songwriter who has a style that makes familiar songs sound new and unfamiliar songs sound like old favorites. A native of Omaha, Nebraska, Dave plays a mix of rootsy, acoustic music on guitar, ukulele, and harmonica from standards to rock and folk to punk.

Dave started playing ukulele at age 10, piano at 11, and guitar 13. He has played electric bass in Omaha cover bands for over 30 years. He learned to play harmonica from his father and continues to make that instrument an essential part of his repertoire. His go-to guitar is the same one he received as a gift from his wife and young son on Father's Day, 1978.

In recent years, Dave has honed his solo performance at coffee houses, bars, and private parties. He is known in the local open mic scene for performing 8 complete songs in 15 minutes. His personal brand, Club Dave Music, is dedicated to making the live music experience fun and engaging for listeners and players. He also plays bass guitar and harmonica and sings in the Heartland Omaha Acoustic Trio and hosts an annual benefit house concert.

Stage setup

If sound reinforcement is required, Dave will provide

- Fishman SoloAmp PA
- Vocal microphone and stand
- All cables
- 4-channel mixer if requested
- Power requirements: 2 110 AC outlets for the PA and pedal power source

If sound is handled by the venue, Dave needs

- 1 vocal microphone and stand
- Guitars have active pickups and can connect through a DI or straight to the mixer
- Vocal harmonizer needs an XLR cable between the mic and pedal and 2 XLR cables between the pedal and PA
- Power requirements: 2 110 AC outlets for the PA and pedal power source
- XLR cables provided if requested
